PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Engineering student with a strong foundation in data analysis, statistics, machine learning, and Python programming. Skilled in using tools like Excel, Power BI, and Pandas to clean, analyze, and visualize data. Experienced in applying machine learning algorithms to uncover patterns and make data-driven predictions. Passionate about transforming raw data into actionable insights to support decision-making in real-world business environments.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Scikit-learn, Matplotlib), CSS, C, HTML

Data Analysis & Visualization: Excel, Power BI, Pandas

Machine Learning: Regression, Classification, Random Forest

Databases: SQL

Concepts: Data Preprocessing, Model Evaluation, API Integration

PROJECTS

Beinge buddy / Python, Pandas, NumPy, Scikit-learn, Tkinter, Matplotlib

- Built Beinge buddy, an intelligent movie recommender system using User-Based Collaborative Filtering and Cosine Similarity to predict personalized movie preferences.
- Implemented data preprocessing, similarity computation, and an interactive Tkinter GUI for visualization. Achieved over 90% model accuracy using machine learning techniques for evaluation.

DashBoard / Power BI

- Designed and implemented a system in DA, integrated APIs, and developed interactive dashboards with analytics and visualizations in Power BI.

Master's Decision Predictor using Random Forest / Python, Pandas, Scikit-learn

- Developed a machine learning model using the Random Forest Classifier to predict whether a student should pursue a Master's degree based on their GATE score and salary.
- Implemented data preprocessing, label encoding, and model evaluation with accuracy metrics to support data-driven academic decision-making.

INTERSHIPS & CERTIFICATIONS

- Summer GTU Internship (AI) – CSRBOX (GTU), Jul 2025 | Learned AI fundamentals.
- Summer Internship (DAML) – INFOLABZ IT SERVICES, Jul 2025 | Worked on Data Analytics and Machine Learning / Data Analytics using Power BI Tool for data visualization / Machine Learning based Fuel Consumption Prediction.

EDUCATION

- B.E. in Computer Engineering | C. K. Pithawala College of Engineering and Technology (GTU) CGPA: 7.72 | Semester: 7th (Ongoing)
